MRS. HEPNER'S CLASS

I am very excited that my literacy project, *Rearing, Roaring, and Ready to Read Anywhere*, was funded by donors on the website DonorsChoose.org. The site allows public school teachers all over the United States to post classroom project requests. Once the project is reviewed and approved by members of the site, it is posted online. Donors can then pledge any amount of money to the project of their choice. All materials that are requested must directly affect student achievement. My project's total cost was \$472.04. I requested nine different literacy items that will help enhance the reading curriculum and make learning more exciting. After the items are sent to the school, I am required to write thank-you notes to my donors. I cannot wait for the supplies to arrive. My students are going to be very excited to be able to work with all of the new supplies, including language arts and spelling games. I look forward to creating another project in the future.

ARCHERY HUNTING BY DYLAN CINDRIC

Third grader student Dylan Cindric accomplished something that a lot of people take years to do. While archery hunting with his father on the evening of October 30th, he was lucky enough to have a six point buck stop broad side at 16 yards. With a steady hand and good aim he made a perfect shot. Watching the buck run away his dad felt confident that it would not go far. After tracking the deer for 75 yards they found it as day light was running out. It was an evening a father and son will never forget. After plenty hugs, high fives and celebrating they prepared the deer for the butcher shop which Dylan took part in.
